🌐 [Voic Andrei](#)

🌐 voic.ro

Summary

AI Engineer with expertise in artificial intelligence, embedded systems, and drone technology. Proven track record of delivering innovative solutions, securing EU funding, and winning international hackathons. Passionate about bridging the gap between AI and real-world applications through practical, scalable implementations.

Education

MSc, Applied Computational Intelligence

2024 – 2026

Babeş-Bolyai University, Cluj-Napoca

BSc, Automation and Computer Science

2020 – 2024

Technical University of Cluj-Napoca

Experience

AI Engineer

RebelDot, Feb 2025 – Present

- Developing cloud-based AI solutions using Azure, Python, and LangChain
- Working on internal AI projects and client solutions
- Implementing advanced AI systems and integrations

AI Intern

RebelDot, Nov 2024 – Feb 2025

- Won RebelDot AI Hackathon, securing internship position
- Developed chatbot integrating SQL databases, Neo4j graph database, and semantic retrieval
- Implemented multi-agent system with knowledge base, Cypher queries, and automated visualizations

Freelance Software Engineer

Oct 2024 – Present

- Built [landgame.ro](#) - complete booking platform with React, Supabase, loyalty system, and i18n
- Developed [F1 simulator leaderboard system for Landgame](#) - real-time telemetry processing, automatic track rotation, session management. Deployed at Tech Expo 2025, Moto Events Braşov, and daily operations
- Conducted drone photogrammetry surveys and 3D modeling for industrial applications

Founder

ShipD, Jul 2022 – Sep 2024

- Founded medical drone delivery startup, secured €60K EU grant funding
- Featured on ProTV iLikeIT, BRD Huge if Real, and ViaClujTV
- Won Yettel Hackathon Budapest Mobility Challenge (€2500)
- Innovation Labs 2022 semi-finalist, 2nd place IoT Student Challenge

Summer Intern

Analog Devices, Jul 2023 – Aug 2023

- [Developed complete accelerometer system](#) from schematic design to Linux driver development
- Designed PCB, soldered components, created data visualization applications in Python/C

PLC Programmer Intern

Kronospan, France, Jun 2021 – Jul 2021

- Designed HMI for industrial tank monitoring systems
- Programmed PLCs and designed electrical cabinet systems

Key Projects

Landgame.ro Platform: Full-stack web application with booking system, loyalty program, admin panel, internationalization, and complex pricing logic. Built with React, Supabase, Tailwind CSS.

F1 Simulator Leaderboard: Freelance project for Landgame racing facility. Real-time telemetry processing from F1 2024 game, automatic track rotation, session management. Deployed at Tech Expo 2025 and Moto Events Braşov.

Maze Solver Robot: 1st place ITEC 2024 & 2025 Embedded Challenge winner. Built autonomous maze-solving robots using STM32, ultrasonic sensors, and custom navigation algorithms.

Drone Operations: Conducted photogrammetry for Sphinx documentary, industrial stockpile inventory, cadastral surveys. Operated DJI Matrice 400 with Zenmuse L2 LiDAR.

Custom Flight Controller: Designed and built from PCB to firmware, achieving stable autonomous flight.

Technical Skills

Programming: Python, C, SQL, MATLAB

AI/ML: LangChain, LangGraph, Langfuse, OpenAI API, VLA Models, Semantic Search, ReAct Agents, Langsmith, LLM-as-a-Judge

Cloud & Tools: Azure, GCP, Docker, Firebase, Supabase

Embedded: STM32, Arduino, ESP8266, ESP32, Pixhawk

Web: React, FastAPI, REST APIs

Drone Tech: DJI platforms, Agisoft Metashape, QGIS, PX4 Autopilot

Certifications

- [Microsoft Certified: Azure AI Engineer Associate](#)
- [Databricks Certified Generative AI Engineer Associate](#)
- [CS50's Introduction to Artificial Intelligence with Python \(Harvard\)](#)

Awards & Recognition

- ITEC Embedded Challenge Winner ([2024](#), [2025](#))
- [RebelDot AI Hackathon Winner](#) (2024)
- [Yettel Hackathon Budapest - Mobility Challenge Winner](#) (€2500)
- [Cluj Hackathon - Personalized Recommendation System Winner](#)
- Innovation Labs Semi-Finalist (2022)
- IoT Student Challenge - 2nd Place (2022)
- Sibiu Innovation Days Hackathon - 3rd Place
- [Huge if Real BRD Episode](#)
- [ViaClujTV IT Report Interview](#)
- [Featured on ProTV iLikeIT](#)
